Rocktrumpet.

Mandevillaï is a genus of tropical and subtropical floweringï vinesï belonging to theï dogbaneï family,ï Apocynaceae. It was first described as a genus in 1840.ï A common name isï rocktrumpet.
*Mandevilla*ï species are native to theï Southwestern United States,ï Mexico,ï Central America, theï West Indies, andï South America.ï
Mandevillas develop spectacular, often fragrant flowers in warm climates.ï The flowers come in a variety of colours, including white, pink, yellow, and red. Many hybrids have been developed, mainly deriving fromï*M.*ï *amabilis*,ï*M. splendens*, andï*M. sanderi*.ï As climbers, Mandevillas can be trained against a wall or trellis to provide a leafy green and often flowering picture of beauty.
Mandevillas are not acid loving plants but can thrive in neutral to slightly acidic or alkaline soils.They generally prefer a well drain fertile soil with pH between 6.6 and 7.5.ï
Water the plant on regular basis when the soil is dry. When roots establishes completely you can increase the amount of water supply to the plants. Avoid overwatering as the plant may result in root rot.
Place mandevilla vine where it gets bright indirect sunlight when planted indoors. When matures you can place the plant in sunlight for a minimum of 8 hours a day. When the temperature drops below 50F in winter season you can bring the pot indoors.ï Plant produces fragrant flowers in warm climatic conditions which come in a variety of colors like white, yellow, red and pink. As a climber, they rail on walls, trellis to provide the beauty of leafy green and beautiful flowers to attract insects, honeybees for pollination purpose.

Category: Outdoor flowering plants
Families: Apocynaceae
Genus: Mandevilla
Species: spp
Geographical Area of Origin: Central America / South America
Climatic Zones: Tropical USDA 11
Habit: Climber
Leaves: Evergreen

Colore Foglie: Verde
Flowering Period: Aprile / Maggio / Giugno / Luglio / Agosto
Flower: Tubular
Colore Fiori: Giallo ï Rosa
Favorite soil: Sub-acid / medium acid / Middle-Dough / Medium soil
Water needs: Medium
Light Exposure: Medium shade / Half shade / Full light / Full sun
Form: Balcony flower pot / Espalier / Wired on stick / Plant on cane / Pyramid / Double arch shaped
Parfumed: yes
