Texas sage "Green Cloud"

One of the largest and fastest growing Texas sages. Rich green leaves with rose-pink flowers. L. frutescens are more tolerant of poor drainage and heavier soils than other Texas sages. Cold hardy to 5 degrees Fahrenheit. (- 15ï C)
Selected for its bright green foliage and large violet-purple flowers. This is one of the larger selections of Texas sage, with a mature size of 6 feet tall (1,8 metri) and wide and an open growth form.

Category: Flowering shrubs
Families: Scrophulariaceae
Genus: Leucophyllum
Species: frutescens "Green Cloud"
Geographical Area of Origin: North America
Climatic Zones: South and Islands (Hinterland) USDA 9 b
Habit: Shrub
Leaves: Ovate leaf
Colore Foglie: Verde ï Grigio
